

# Cordell Christian Home's Resident's RDigest

By Nicole Allen

On December 20<sup>th</sup>, Administrator Sheryl McComas took two Cordell Christian Home employees, Cricket Cook and Karen White, and two CCH residents, Bob Bond, and Margaret Frank, on a trip that they will never forget. That Thursday morning they headed off to The Children's Center in Bethany, OK.

The Children's Center is a non-profit home that helps children with physical and mental disabilities by providing them with medical care, comprehensive therapy, and education. Like the Cordell Christian Home, The Children's Center bases its care off of human love and faith in God.

A children's book was given to a little boy named Casey Amend who enjoyed spending time with our residents, Bob and Margaret. CCH also donated toys, underwear, and other personal care items to the Children's Center. The children at the center were very appreciative and our residents were glad that they got to be a part of it all. It made us realize that the love of a human can always make a difference.
